1. The forced evacuation of civilian inhabitants from the residential district of Boernerowo near the newly built military airfield continues. Soviet soldiers, mostly in Polish uniforms, are being quartered in the buildings which have been evacuated.
2. An air division (dywizja) of jet fighters and bombers is to be sent to this airfield which is one of the largest in Europe.
3. Due to the sandy nature of the soil, when constructing runways ribs of ferro-concrete are first laid on the ground and are then covered with concrete slabs 60 cm. thick. Up to now, runways to a total length of 3,200 meters have been constructed. The construction of runways is continuing.
